Projects

Form Bot | Best Full-Stack Project, Not Responsive

Oct 2024

- Developed a secure, next-gen chatbot to replace Google Forms, enabling interactive chat with users through text, images, and videos, while displaying submissions on a dashboard.
- It is fully secure, as I am storing hashed passwords using bcrypt and save it in MongoDB.
- **Technology-** React, Redux, Express, Node, MongoDB.

Task Manger | Full-Stack, Not Responsive

Jul 2024

- I have created MERN-based web application with password protection, enabling user management, post creation, and content sharing with role-based permissions.
- The application features post assignment and read-only sharing, along with an analytics page for data visualization and activity insights.
- **Technology-** React, Redux, Express, Node, MongoDB.

Ecommerce Website | Frontend, Responsive

Sept 2024

- I have created fully responsive Ecommerce Website which is copy of GELATO website.
- **Technology-** React, Tailwind.

Experience & Certification

Userology (AI StartUp) :- Frontend Developer Internship

Mar 24 – May 24

- I am working as a Frontend Developer at Userology, an AI-powered User Research Platform from San Francisco, United States.
- Utilized [NextJs, TypeScript, React.js, Tailwind CSS, JavaScript and REST APIs].

NextOpson (Real Estate StartUp) :- Frontend Developer Internship

Nov 24 – Mar 24

- Redeveloped the company's primary website with a modern design and improved functionality to enhance user experience and responsiveness.
- Spearheaded the development of NextDeals, a new project website for the company's second real estate venture, delivering a visually appealing and efficient frontend interface with responsive design.
- Utilized [React.js, Tailwind CSS, JavaScript and REST APIs] to create scalable, responsive, and user-friendly web applications.

Cuvette (EdTeck StartUp):- Full Stack Developer Internship

Mar 24- Aug 24

- I have completed a 6-month Full Stack training and internship. During this internship I have created 3 full stack clients projects.
